

Construction and Demolition Debris means:

1. Discarded materials generally considered to be not water soluble and non hazardous in nature, including but not limited to steel, glass, brick, concrete, asphalt material, pipe, gypsum wallboard, carpet, and lumber from the construction of a structure as a part of a construction or deconstruction of a structure as part of a construction or demolition project or from the renovation of a structure and/or landscaping, and including rocks, soil, tree remains, trees, and other vegetative matter that normally results from land clearing, landscaping and development operations from a construction project.
2. Clean cardboard, paper, plastic, wood, and metal scraps from any construction and/or landscape project.

Examples of Recyclable and Reusable Materials:

1. Inerts (masonry building materials) including all products generally used in construction including, but not limited to, asphalt, concrete, rock, stone, and brick.
2. Wood materials including any and all dimensional lumber, fencing, or construction wood that is not chemically treated, creosoted, CCA pressure treated, or painted.
3. Vegetative materials including trees, tree parts, shrubs, stumps, logs, brush, or any other type of plants that are cleared from a site for construction or other use.
4. Metals including all metal scrap such as, but not limited to pipes, siding, window frames, doorframes, and fences.
5. Roofing materials including wood shingles as well as asphalt, stone and slate based roofing material.
6. Salvageable materials including, but not limited to wallboard, doors, windows, fixtures, toilets, sinks, bath tubs and appliances.
7. Materials used onsite for habitat restoration.
