

El Dorado County Sheriff Office

Press Release

For Immediate Release

Sgt. Bryan Golmitz

Winter Storm Advisory, January 16 - 22, 2010

El Dorado County Sheriff's Office/Office of Emergency Services is asking all residents to be prepared as a series of weather systems make their way through the region in the coming weeks. According to the National Weather Service, there are significant storms developing that could affect our region beginning late Sunday or early Monday. These storms will bring intense rains, strong winds and snow levels above 5,000 feet.

This first storm does not appear to be bring a low snow fall as the storm 6 weeks earlier but we encourage all residents to be prepared to do without service for up to a 72 hour period. Sheriff's Office/Office of Emergency Services stresses that each family and residence have an emergency plan in place to deal with such incidents. There are many sites on the internet, which can assist you in preparing an emergency plan.
