Expanded Online Crime Reporting

In an attempt to provide increased reporting services, the El Dorado County Sheriff's Office has expanded its online crime reporting capabilities. This move has been created to lessen the impacts to patrol deputies but also address the public's need to report criminal activity. By increasing the number and type of crimes reportable through the internet, the Sheriff's Office can utilize patrol deputies more efficiently by keeping them available for response to increasing priority calls.

The Online Crime reporting is not for emergencies or crimes in progress. In the event of an emergency or a crime in progress, **Dial 911**.

The online crime reporting system is **not intended** for the following types of crimes:

- Violent Crimes
- Sexual misconduct
- Stolen vehicles
- Lost or stolen license plates
- Domestic Violence
- Assaults and battery

The Online Crime reporting system can be used for the following crimes:

- Theft
- Vehicle burglary
- Identity theft
- Annoying phone calls
- Vandalism
- Lost property
- Internet fraud
